Root Beer Oil is a natural alternative to topical, over the counter pain relievers which numb nerve endings and temporarily mask pain. Root Beer Oil is an all natural blend of ancient oils and modern nutrients which, when applied to the skin, help promote new cell growth and healing, eventually eliminating the original source of pain. - \* relax tight stretched tendons\*
- \* dissolve mineral deposits\*
- \*lubricate dry, stiff joints\*
- \*dissolve scar tissue\*
- \*rebuild cartilage\*

\*\*\*"I've tried your liniment and it has helped tremendously with the rehab of a total knee replacement! I do not want to be without it anymore so please send me two more bottles of the new lavender scented oil, in fact, make it three so I can send one to my friend who just had his hip replaced. Thanks again for the wonderful product!" Scott F. B., AZ.

\*\*\*"The order of four bottles arrived safely today thank you. We are so pleased with the oils, our old donkey was in pain with a swollen knee after applying the ointment for a few days she is walking pain free again. Yesterday I too was in a lot of pain with fluid on the knee, I put some of the ointment on, and fell asleep, when I woke up the swelling and pain had completely gone. I wonder if you have any more of the ointment, we are very impressed with it." Kind regards Elizabeth, England

\*\*\*I gave a bottle to a friend who was having tendonitis up his arm so bad he cried. He used half a bottle in two weeks and the pain is gone. His buddy had elbow and knee pain and was skeptical but used some. He said he could tell a big difference when he was using the root beer oil when he played pool. They both want me to buy them a bottle oil."Thanks, Lori

\*\*\*I tried this product when my friend Valley A. told me how much it helped her and her hands! What an amazing product!! Your product is a miracle!
